Who It Serves

Administrators

Full control over the platform — manage products, orders, farms, staff, CMS, SEO, finances, and analytics from a single dashboard.

Staff / Field Workers

Dedicated portal for task management, crop & livestock tracking, and inventory updates in real time.

Customers / Investors

Self-service portal to browse products, place orders, track deliveries, and manage their investment portfolio.

Built On Modern Technology

Laravel 13 · PHP 8.3 · MySQL / SQLite · Tailwind CSS · Alpine.js · Vite · Blade Templates

Fully responsive, mobile-ready, with role-based access control and multi-portal architecture.

Key Features

Product Marketplace

Browse, list, and purchase agricultural products with category filtering, pricing, and media uploads.

Order Management

Full order lifecycle: creation, status tracking, invoicing, and fulfillment — for admins and customers.

Farm & Crop Tracking

Track farm plots, crop cycles, livestock herds, harvest records, and field task assignments.

Finance & Records

Income/expense ledger, financial reports, budget tracking, and audit logs.

CMS & Content

Manage hero sections, blog posts, services, testimonials, banners, popups, and navigation menus.

Staff Management

Role-based staff accounts with task boards, performance visibility, and mobile-friendly workflow.

Chat & Communication

Built-in real-time chat between admin, staff, and customers. Customer inquiry management.

SEO & Analytics

Meta tags, sitemap, structured data, plus an analytics dashboard with visitor statistics.

Customer Portal

Self-service dashboard for orders, product browsing, and profile management.

Media Library

Centralised media uploads with tagging and reuse across products, blog, and pages.

Project Tracking

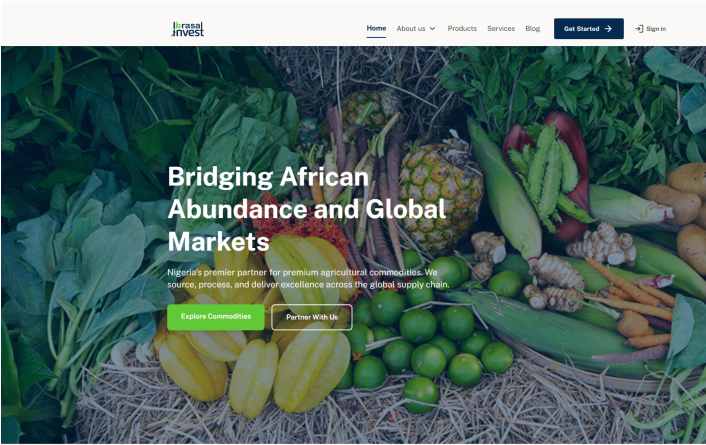

Internal project and milestone management integrated with farm and investment activities.

Settings & Roles

Granular permission system, site settings, user roles, and multi-language readiness.

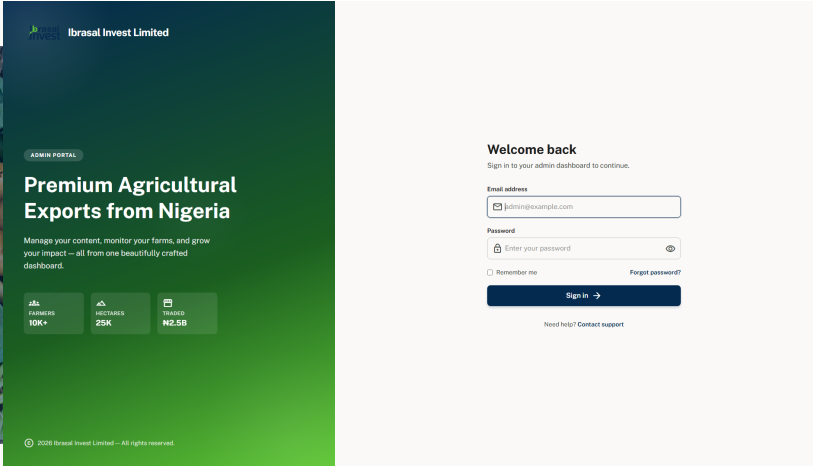

Admin Panel Overview

The Admin Panel is the nerve centre of Ibrasal Invest. Administrators have full access to all 30+ management modules — from product catalogues and order fulfilment to farm operations, finance, CMS, and system settings.

Dashboard Overview

Order Management

Farm & Crop Management

Additional admin modules: Customers · Inquiries · Blog · Services · Team · Testimonials · Livestock · Inventory · Tasks · Finance · Chat · Popups · Banners · Media · Menus · Users · Settings · SEO · Statistics · Projects

Staff Portal

The Staff Portal gives field workers and operations staff a focused, mobile-friendly interface. Staff can view their assigned tasks, update crop and livestock records, and manage inventory — all without needing full admin access.

Customer Portal

The Customer Portal empowers investors and buyers with a clean, self-service interface. Customers can browse the product marketplace, place and track orders, view order history, and manage their account — with full visibility into their investment activity.

PHP 8.3

MVC architecture with service layer, policies, and resource controllers

Database

MySQL / SQLite

40+ Tables

Eloquent ORM with migrations, seeders, and 40+ relational tables

Frontend

Tailwind CSS

Alpine.js + Vite

Utility-first CSS with reactive Alpine.js components and Vite asset bundling

Auth & Roles

Laravel Sanctum

Role-Based ACL

Multi-portal authentication with granular permission control

File Storage

Laravel Storage

Local / S3-ready

Centralised media library with image optimisation support

Realtime

Laravel Echo

Pusher-ready

Chat and notifications with broadcasting support

Demo Access Credentials

Use the credentials below to access each portal of the live Ibrasal Invest demo. All portals share the same password.

Portal	Role	Email	Password	URL Path
Admin Panel	Super Admin	admin@demo.com	123456	/admin
Staff Portal	Field Staff	staff@demo.com	123456	/staff
Customer Portal	Investor	customer@demo.com	123456	/portal

Notes

- Demo data is pre-seeded — all features are fully functional.
- Admin credentials provide access to all 30+ management modules.
- Staff and Customer portals have restricted access per their role.
- Demo environment is for evaluation only; data resets periodically.
